

**NORTH DAKOTA INDUSTRIAL COMMISSION (NDIC)**  
**CLASS II UNDERGROUND INJECTION CONTROL PROGRAM (1425)**  
**FY 2021 STATE MID-YEAR OVERSIGHT SUMMARY**  
**Performed Via Phone on July 7, 2021**

Participants:

Mark Bohrer, NDIC  
Ashleigh Day, NDIC  
Douglas Minter, EPA UIC, Section Chief  
Craig Boomgaard, EPA UIC, ND1425 Project officer

Discussion Topics:

- EPA inquired about updates on the Mann Oil – McKenzie Federal 35-1 activities. NDIC was curious of the status of the well. EPA indicated Mann Oil needed to obtain an aquifer exemption (AE) to operate the well.
- EPA asked about updates on the progress made on the items listed in the in-depth state review report. Due to workloads NDIC has not made any further progress on the SOPs.
- The NDIC is on target for meeting their inspection target for the year.
- NDIC is going through a rule change. The following milestones have occurred:
  - 10/4 Mark Bohrer, NDIC sends EPA rule changes: Attached are proposed rule changes related to UIC. We have scheduled hearings for October 7 and 8, 2019. The comment period will end on October 18, 2019.
  - 10/18 – Email from Douglas Minter, EPA to Mark Bohrer, NDIC approves rule changes.
- NDIC indicated that the shortest turnaround time for Class II Permit was 47 days. Other application times varied upon the responsiveness of the applicant.
